ABOUT US

Overview

ClinPlacer is a digital platform designed to simplify clinical placement coordination and monitoring in Kenya. It connects training institutions, healthcare facilities, supervisors, HODs, and students in one centralized system. The platform improves placement management, student rotation tracking, collaboration, and record keeping.

Mission

To make clinical placement management fully paperless while reducing administrative burden and improving training quality.

Vision

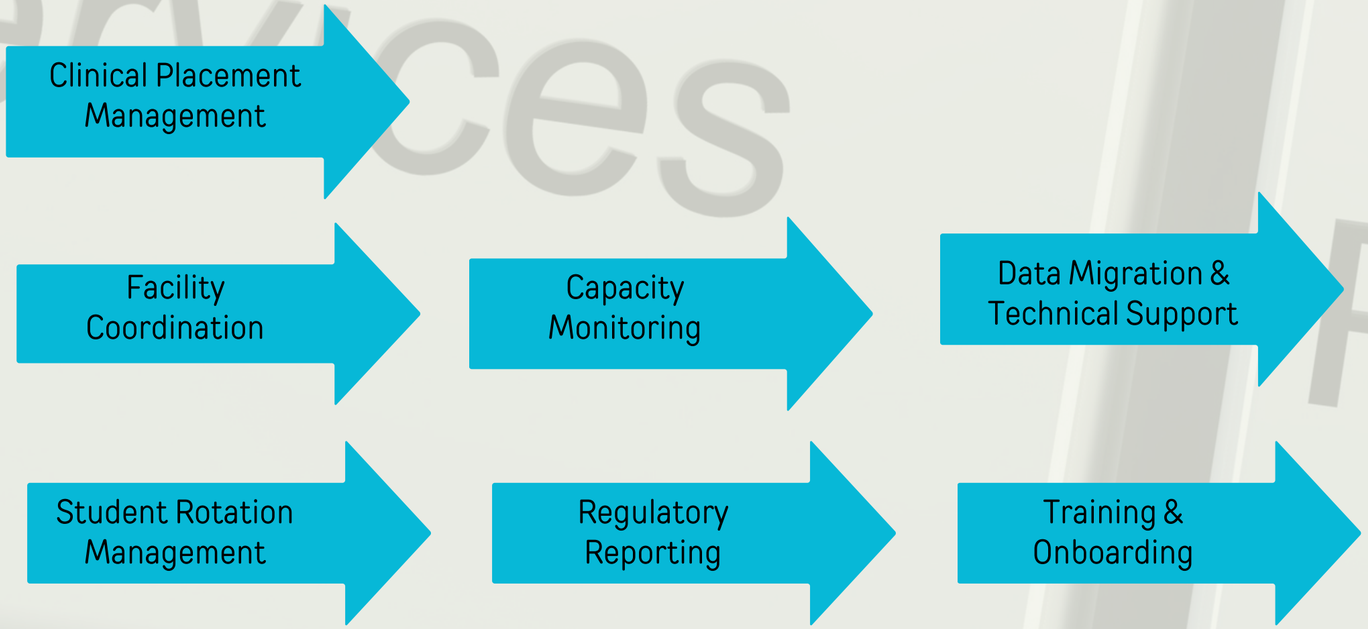

To become the platform every medical training institution in Africa trusts for clinical placement management.

CONCLUSION

ClinPlacer is a secure and compliant clinical placement coordination and monitoring system designed to streamline the entire placement process. It enables training institutions, healthcare facilities, supervisors, and students to seamlessly connect, coordinate placements, monitor clinical rotations, manage records, and communicate effectively through one centralized digital platform. By replacing fragmented manual processes with efficient digital workflows, ClinPlacer promotes transparency, accountability, collaboration, and better management of clinical training.
